This product has been tested by Florida Cannalytics, LLC (FLC), using validated testing methodologies and an accredited quality management system as required by the state of Florida. Results are only valid for and reflective of the exact sample as collected, received, and analyzed by the laboratory at the time of final reporting. FLC makes no claims as to the efficacy, safety or other risks associated with any detection or non-detection levels of any compounds reported herein. Sampling conducted pursuant to SAM S.106. The laboratory's measurement of uncertainty (MU) for its sampling and testing methodologies are available upon request. MU is not considered when evaluating conformity, unless expressly documented on the final testing report. Samples tested for R&D purposes only are taken "as is" and are reported for "Informational Use Only - Not for Regulatory Use". This Certificate shall not be reproduced except in full without the written approval of FLC. Definitions: IC=In-control QC parameter, NC=Non-controlled QC parameter, ND=Not Detected, NR=Not Reported, ppm=Parts Per Million, ppb=Parts Per Billion, Limit of Detection (LOD) and Limit of Quantitation (LOQ) are terms used to describe the smallest concentration that can be reliably detected (LOD) and measured (LOQ) by an analytical procedure. RPD=Relative Percent Difference, reproducibility of two measurements. Action Levels defined by the State of Florida based on pre-determined thresholds for human safety for consumption and/or inhalation. Unless otherwise indicated, issuance of this COA and listed results, were reviewed, verified, and authorized by the Lab Director or an approved designated representative. Issuance of this final report is authored for release by the Laboratory Director. Samples securely stored in a manner to prevent degradation if not analyzed immediately upon accessioning and intake within the laboratory.
