Daniel Vorjsek Laboratory Director

Laboratory at the time of final reporting. FLC makes no claims as to the efficacy, safety or other risks associated with any detection or non-detection levels of any compounds reported herein. Sampling conducted pursuant to SAM.5.106. The laboratory's measurement or uncertainty (MUI) for its sampling and testing methodologies are available upon request. MU is not considered when evaluating conformity, unless expressly documented on the final testing report. Samples tested for R&D purposes only are taken "as is" and are reported for "Informational Use Only - Not for Regulatory Use". This Certificate shall not be reproducible unit of Quantitation (LOQ) and Limit of Quantitation (LOQ) are terms used to describe the smallest concentration that can be reliably detected (LOD) and measured (LOQ) by an analytical procedure. RPD=Relative Percent Difference, reproducibility of two measurements. Action Levels defined by the State of Florida based on producibility of two measurements. Action Levels defined by the State of Florida based on producibility of two measurements. Action Levels defined by the State of Florida based on producibility of two measurements.
